

SEMINAR SERIES IN BIOSTATISTICS

April 7, 2021

17:00-18:45

Zoom

(MEETING ID: 651 0002 8770) (PWD: 490973)

Alessio Crippa, PhD

Department of Medical Epidemiology and Biostatistics,
Karolinska Institutet,
Stockholm, Sweden

An introduction of Survival Analysis with R

Alessio received his PhD from Karolinska Institutet, Stockholm, working on the development of statistical methods for quantitative review and meta-analysis. He is currently working as post-doctoral researcher at the same university focusing on the design of adaptive clinical trials and their analysis using Bayesian survival models. In this lecture he will overview how to use Rstudio and R to run survival analyses techniques, ranging from non parametric, semi-parametric to parametric regression models.
